Dragana Becic
Assistant Director
Office for IT and eGovernment
Government of the Republic of Serbia

Born in Belgrade in 1987. After graduating from the Third Belgrade Grammar School, she enrolled in the Faculty of Organizational Sciences, Undergraduate Study Program of Information Systems and Technologies at the University of Belgrade, where she also completed her master academic studies. After completing her studies, she worked in the private sector in the field of marketing and sales, was employed with the Public Enterprise "Post of Serbia", and joined the team of the Office for Information Technologies and eGovernment in 2018, where she manages the Digitalization Standards Sector. Her activities at the Office are aimed at establishing IT standards and innovations in the public administration of Serbia in order to improve the reliability of the designed systems and their user orientation, relevance, and ease of use. In an effort to provide portals and services tailored to users' needs and the selection of the most adequate solutions, she also monitors and considers the best practices and international standards in the application of ICT in public administration, establishes bridges of cooperation with institutions as well as user communities, the civil society sector, the IT community, and the professional public. She listens to their ideas and includes them in the design. She made a significant contribution to almost all projects of the Office in the previous 5 years, and her contribution to the initiative for the opening up of public administration data certainly stand out, as well as her activities on the redesign of the eGovernment Portal, the Electronic Identification Portal, various electronic services, and the establishment of the "Smart Serbia" platform for advanced data processing, signature in the cloud, the National Platform for Artificial Intelligence and many more.
