

**GOULAPTSI MARIA**

I am an Electrical and ICT Engineer with a Master's degree in Law and Engineering for Energy from the Aristotle University of Thessaloniki. Since 2017, I have been Head of the Innovation Support Department, and for the past two months, I have also been serving as Deputy Head of the Directorate of Innovation and Entrepreneurship Support at the Region of Central Macedonia. I am responsible for implementing and monitoring the Regional Innovation Smart Specialization Strategy (RIS3), as well as managing the One-Stop Liaison Office (OSLO), which fosters collaboration among SMEs, universities, and research institutions. With extensive experience in public administration, I have held various roles in regional development, while my expertise lies in regional innovation ecosystems, public funding mechanisms, and fostering cross-regional cooperation.
